Bid 15-12-B Roy Warner Park Improvements (Phase I)

Following a thorough review of all the bids submitted for the Roy Warner Park improvements by staff and the County Attorney, it was determined that the two lowest bid packages were incomplete and did not comply with the solicitation. Thus, those bids were non-responsive based on the County Code and the solicitation documents. The other bids submitted substantially exceeded the available funds for the project. Therefore, County Council has rejected all bids, directed that a revised scope of work be developed and the project be re-bid. We appreciate your interest in this work and hope that you will submit again on the revised plan. We do not have a timeframe for the project rebid.

Should you have any questions or comments concerning this solicitation please submit them to procurement@aikencountysc.gov . Phone calls will not be accepted.
